

Colouring in Our Camus Heritage

Get out your colouring pencils, crayons or paints!

Everybody loves colouring-in! It used to be seen as a children's activity but people of all ages can enjoy this relaxing and fun activity. Whether you do it as a form of mindfulness, or to explore colour and pattern, you can now download and colour in some images from our church collections.

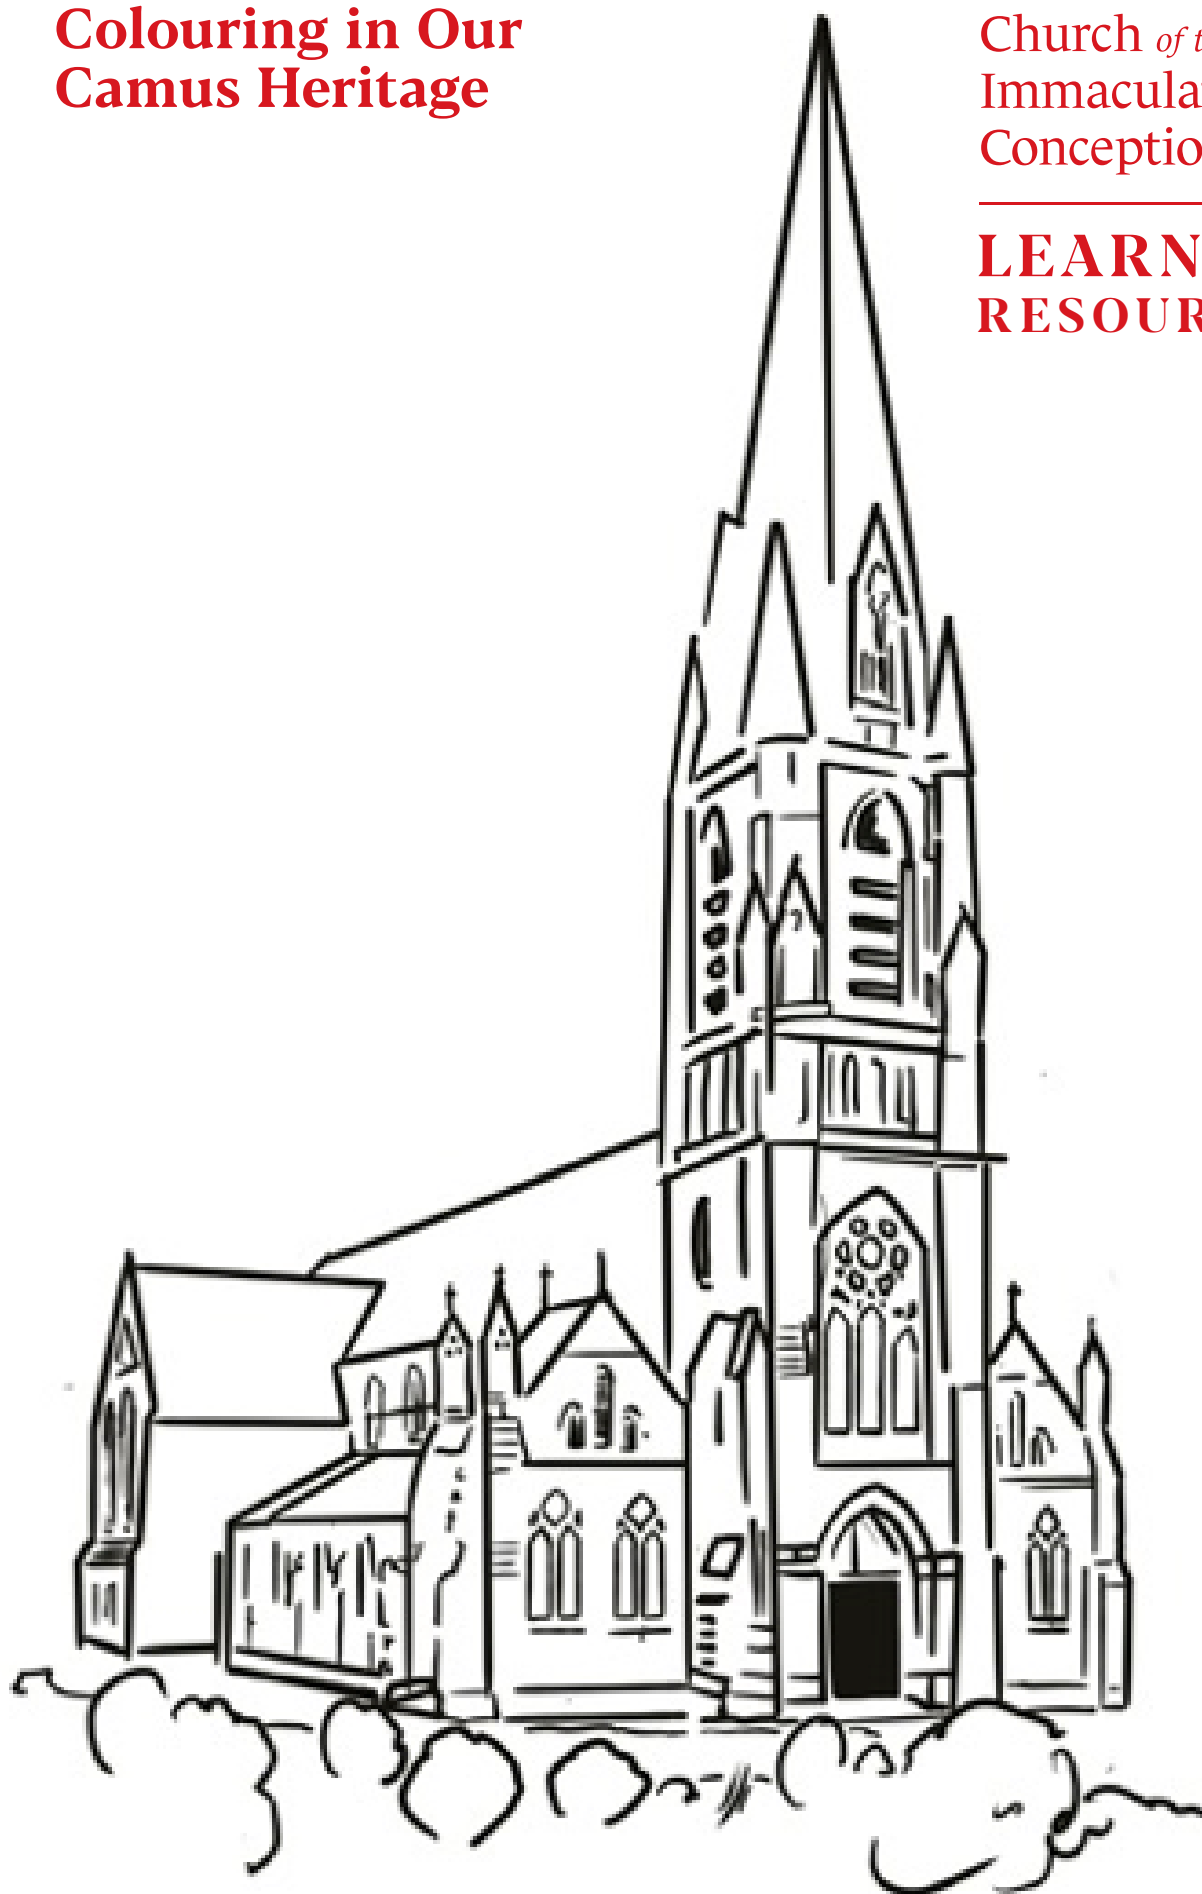

This could be developed as a colouring activity for younger children - using talking, looking, questioning, answering, choosing colours etc.
